Summary Result of 2024

BIOEXPO 2024 Life Sciences Fairs hosted visitors and participants at ICEC-Istanbul Lutfi Kırdar Fair and Congress Center on 23-25 October 2024.

The fair, which included participating companies offering products and services in the fields of cleanrooms, laboratory systems, pharmaceutical industry and biotechnology, was watched with interest by 4413 professional visitors for three days. 92% of visitors were members of sectors and industries directly involved in relevant topics. Professional and scientific events held simultaneously with the fair were watched with interest by both fair visitors and participating organization officials. BIOEXPO created the **SCIENCE-TECHNOLOGY-INDUSTRY**-based Ecosystem of Life Sciences fields with the richness and diversity in the product displays of the fair participant companies throughout the fair, product promotions, presentations and training programs made both in the presentation halls and special areas of the fair.

BIOEXPO Fair and Events were officially supported by many professional organizations and institutions this year. Especially Marmara University Faculty of Pharmacy, Gebze Technical University, Çanakkale Onsekiz Mart University, Turkish Health Institutes Presidency-TÜSEB, Turkish Medicines and Medical Devices Agency-TİTCK, Cleanroom Technologies Association, Research Pharmaceutical Companies Association-AİFD, Turkish Pharmaceutical Industry Association-TİSD. Various institutions both officially supported the fair and added a different dimension to the fair with the events and programs they organized.

Fair visitors:

- 92% directly registered as industry professionals,,
- 77% were people looking for products and solutions in the pharmaceutical industry, laboratory, cleanrooms and biotechnology fields,
- 84% were decision makers.

At BIOEXPO 2024 Fields of activity & professional groups

Branches of science in biology	291
Biotechnology fields and experts	366
Cleanroom & Laboratory experts	470
Chemical Engineers & Chemists	348
Engineering disciplines	255
Medical professionals	194
Pharmacology experts	322
R&D experts	272
Technician & Laboratory & Technical support	486
Academician	277
Industry professionals	710
Students of specializations	422
Total Visitors	4413

3718 exhibition visitors
695 registered event delegates

4030 domestic and
383 international visitors

Totally
4413
trade visitors

Participants of BIOEXPO 2024

Laboratory Industry

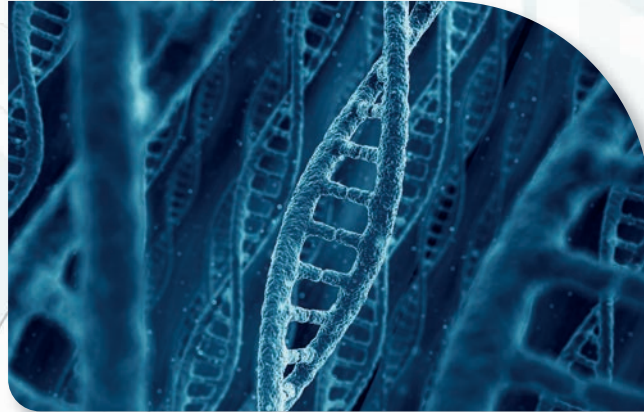

Advanced technologies, developments, applications and know-how at the Analysis and Laboratory Technologies stands... Experts who produce equipment and services for applications within the scope of analysis technologies, from the pharmaceutical and health industries to the chemical and production industries, came together at the “technology and expertise fair” of the subject in Turkey. The LAB industry, which spans an extremely wide sectoral area, presented and exhibited in front of industry experts with its most advanced know-how and applications, from basic research and development activities to the latest products produced with advanced technology.

**Analytech**

Among the visitors;
470 Laboratory specialists
348 Chemical Eng. & Pharmacist
486 Laboratories and Technicians

bioexpo[®]
LIFE SCIENCES PLATFORM

Biotechnology Industry

Biotechnology experts who produce technology and services for the applications of Biotechnology and Life Sciences in different industries came together within the scope of BIOEXPO/Biotecnica, the subject's expertise platform in Turkey. They presented the industrial application techniques and expertise developed by biotechnology for different sectoral fields, from education to industry, from health to energy, from laboratories to production processes, with various exhibitions and events at the fair.

 **Biotecnica**

Among the visitors;
366 Biotechnology experts
291 Biologists
322 Pharmacologists

bioexpo[®]

Cleanroom Industry

Cleanroom technologies, Cleanroom experts who produce technology and services for the Cleanroom areas of industrial facilities, came together at the only fair of the subject in Turkey. BIOEXPO/Cleanroom Fair this year also covers everything from project planning to investment; It covered facility managers and Cleanroom professionals, product and service technologies of the Cleanroom industry throughout the entire process from production to control and management, and fulfilled an important network function in this field. In addition to the rich products, services and technologies exhibited, the conferences, meetings and technical presentation environments held during the fair brought Cleanroom experts and facility managers together at BIOEXPO/Cleanroom Fair within the framework of this information network.

Among the visitors;
470 Cleanroom experts
255 Engineer experts
272 R&D experts
486 Technicians

Pharmaceutical Industry

Experts of producing technology, equipment and services in the pharmaceutical industry came together at Turkey's innovative pharmaceutical industry fair and symposium. Experts and institutions showcased their advanced technologies and know-how through various exhibitions, events and presentations. Applications, products and technologies, and information on industrial legislation within the fields of activity of the pharmaceutical sector and industry, health sector, biotechnology industry and medical engineering were presented to the expert visitors of BIOEXPO/PharmaNEXT in all their details.

 PharmaNEXT

Among the visitors;
322 pharmacologist
277 academician
194 medical specialist
422 specialist student

Scientific and Industrial Events

3 days...
11 halls...
23 events...

SYMPOSIUM

► **Pharmaceuticals, Cosmetics and Food Supplements Production Strategies and Market Access Symposium;**

brought together public authority, academia and industry professionals for 3 days with 20 sessions and the contributions of more than 80 speakers. During the symposium, comprehensive information was shared about the latest trends and strategies in the production of pharmaceuticals, cosmetics and food supplements.

SEMINAR

Current GMP Guide and Application Examples Seminar;

provided holistic presentations of current developments and practices in the Cleanroom industry to the participants.

Green Transformation Meeting in the Pharmaceuticals, Cosmetics and Food Supplements Sector;

created a platform for important information on leading strategies and sustainability in green transformation.

OpenLAB Education Platform

With the OpenLAB trainings given by experts in special classes, especially young scientists and industry professionals gained very important information about methods and concepts that they can use at any time in their careers.

Medicinal Aromatic Plants and Green Technologies Ecosystem Meeting;

created an opportunity to meet with academicians and sector representatives on the sustainable use of natural resources.

Exhibitions... Competitions... Trainings...

“Medicinal Aromatic Plants 2024 Project Competition”, Presentations on the theme of “Establishing a Medicinal Plant Garden”, Young academician meetings with the theme “60 Minutes at Bioexpo”, “Technical Seminar” meetings of companies; It brought together thousands of interested parties in BIOEXPO Halls.

Business Development Meetings

New ideas and new formations in thematic areas were discussed at the meetings. Ideas paved the way for new collaborations.
